

## North Tahoe Public Utility District Weather Based Smart Irrigation Controller Rebate Credit Application

### Weather Based Smart Irrigation Controller Rebate Credit Program Guidelines

1. NTPUD water customers are eligible for rebate credit. A water customer is defined as the customer whose name is on the billing account.
2. Rebate credit application submittal begins February 1, 2016.
3. Limited to first 100 applications.
4. One application must be submitted for each controller being replaced.
5. Application must include all receipts.
6. Irrigation Controller must have been purchased after January 1, 2014.
7. Rebate credit will be applied to the customer's water bill.
8. Irrigation controllers must be installed within NTPUD's water boundaries. NTPUD staff shall perform inspections of all installations prior to applying rebate credit.
9. Customers will receive a 50% rebate credit up to a total of \$100 per irrigation controller installed, with a maximum credit for two (2) controllers per property/billing account. The rebate credit may be a combination of the cost of the controller and the cost of installation, up to the maximum rebate credit amount of \$100 per controller.
10. Rebate credit will only apply to weather based "smart" irrigation controllers that are EPA WaterSense certified and/or contain moisture sensors and/or are controlled with a rain sensor, and are programmable to meet the District's watering restrictions.
11. Rebate credit is only applicable for existing irrigation systems.
12. Submit an **application** and **original receipt(s)** to:

NTPUD Smart Irrigation Controller Rebate Credit Program  
PO Box 139  
875 National Avenue  
Tahoe Vista, CA 96148
