

North Tahoe Public Utility District Water Saving Dishwasher Rebate Credit Application

Water Saving Dishwasher Credit Program Guidelines

1. NTPUD water customers are eligible for rebate credit. A water customer is defined as the customer whose name is on the billing account.
2. Rebate credit application submittal begins February 1, 2016.
3. Limited to first 50 applications.
4. Limit one per household.
5. Application must include all receipts.
6. Dishwasher must have been purchased after January 1, 2014.
7. Rebate credit will be applied to the customer's water bill.
8. Dishwasher must be installed within NTPUD's water boundaries.
9. Customers will receive a 50% rebate credit up to a total of \$100. The rebate credit may be a combination of the cost of the dishwasher and the cost of installation if installed by a California Licensed Contractor, up to the maximum rebate credit amount of \$100 per dishwasher.
10. Rebate credit will only apply to dishwashers that have soil sensors, use 6 gallons per cycle or less, and are Energy Star certified.
11. New construction and tear-down rebuild construction are not eligible to receive rebate credit. Kitchen remodels with existing high flow dishwasher and installation of a new, low-flow dishwasher in an existing kitchen where no dishwashers previously existed are eligible.
12. Submit an **application** and **original receipt(s)** to:

NTPUD Water Saving Dishwasher Rebate Credit Program
