The EMPLOYEE retains all rights conferred by applicable local, state, and federal laws, and in accordance with Section 3500 of the Government Code.

3.10.050 District Rights

Nothing contained in this Ordinance shall be construed to require the DISTRICT to meet and confer on matters which are solely a function of Management. The rights specifically retained by the DISTRICT are the rights, included, but not limited to; to direct the work force and allocate all labor resources; to select and determine the number and types of EMPLOYEES required; to determine the content of job classifications; to hire, transfer, promote, suspend, discipline, and terminate EMPLOYEES; To assign work to EMPLOYEES in accordance with the requirements determined by the DISTRICT; including overtime assignments; to establish and change work schedules and assignments; to lay off EMPLOYEES for lack of work; to expand and diminish services; to subcontract any work or operations; to determine and change methods of operations; to determine and change work locations and the processes and materials to be employed; to take all necessary actions to perform its functions in emergencies.

3.10.060 Administration

The RESPONSIBLE AUTHORITY shall be responsible for the administration of this Ordinance, and shall specify such administrative procedures, forms, records, reports and audits as he or she deems necessary for proper administration of this Ordinance. The RESPONSIBLE AUTHORITY may assign to other DISTRICT EMPLOYEES, such duties in connection with this Ordinance as he or she deems proper and expedient.

Except as specifically provided herein, the RESPONSIBLE AUTHORITY shall be responsible for the proper application of the provisions of this Ordinance, and he or she or such person as he or she may designate, shall rule on the application of the provisions of this Ordinance which are within the scope of his or her authority.

It shall be the mandatory duty of the RESPONSIBLE AUTHORITY, to keep, or cause to be kept, accurate records of the application of this Ordinance.

3.10.070 Pre-Employment Documentation

All EMPLOYEES shall be required to complete or provide certain documentation prior to employment. These documents include, but are not limited to; motor vehicle operator's verification and motor vehicle operator's record, application for employment, EMPLOYEE Physical Exam Report, EMPLOYEE Health Questionnaire, EMPLOYEE Withholding Allowance Certificate Form W-4, District Regulations Concerning Alcoholic Beverages, and Immigration Form INS-9. Falsification of any portion of these documents is grounds for immediate dismissal without the right of appeal.

3.10.080 Work Week, Hours of Work, Overtime

For all EMPLOYEES, except part-time EMPLOYEES, the normal work week shall consist of forty (40) hours, being five (5) consecutive days of eight (8) hours each, exclusive of lunch period. A normal day shall consist of eight (8) hours in a twenty-four (24) hour period. Changes in the eight hour day will be made at the discretion of the RESPONSIBLE AUTHORITY to meet unique operating characteristics of the DISTRICT, such as, but not limited to, the availability of daylight, location of infiltration sources, operation of pump stations, emergency operations, special recreation events and snow grooming.

The RESPONSIBLE AUTHORITY, or a designated representative, shall give EMPLOYEES reasonable notice of changes in work week, or scheduling of the eight (8) hour period.

For those EMPLOYEES, excepting OFFICER or UNCLASSIFIED EMPLOYEES, working the normal work week, all work performed in excess of forty (40) hours in any workweek, shall constitute over time work and shall be paid at the rate of time and one-half (1-1/2) said EMPLOYEE'S regular rate of pay.

Vacation, and sick leave, or other time off for which an EMPLOYEE is paid, shall not count as hours worked. Only hours actually worked shall count in the determination of overtime in a day or in a week. Hours taken for non-working activities (CTO, sick leave, vacation, holiday) will not be included in the calculation of hours worked for overtime purposes. Overtime for emergencies may be authorized at the discretion of the RESPONSIBLE AUTHORITY. Overtime shall be recognized and paid for only when directly authorized by a Supervisor, Public Works Director/Assistant General Manager or RESPONSIBLE AUTHORITY.

All time worked shall be paid in increments to the nearest one-tenth (1/10) hour. All EMPLOYEES normally shall be allowed a meal period of not less than thirty (30) minutes, nor more than one (1) hour, which shall be scheduled generally in the middle of the work shift. Whenever it is necessary for an EMPLOYEE to work overtime in excess of two (2) consecutive hours, he or she shall be granted an additional meal period, the time of taking is at the discretion of the SUPERVISOR. Meal periods shall not be counted a part of the total hours, except for those REGULAR EMPLOYEES for whom meal periods are included within the hours of assigned duties, such as an emergency which requires constant observation of a piece of operating equipment, or constant attention to a specific repair operation.

Upon mutual agreement with the RESPONSIBLE AUTHORITY, EMPLOYEES shall be allowed to participate in alternative work schedules that consist of working either eight nine hour days and one eight hour day in each 80 hour pay period (9-8-80) or four ten hour days in each work week (4-10-40). Under these schedules, the normal work day may exceed eight hours and the work week may differ from the normal Sunday through Saturday schedule.

Under the 9-8-80 work schedule, the work week will not be changed, but the work week will vary with an EMPLOYEE'S work schedule. The first day of this work week is determined by the day of the week the EMPLOYEE will be scheduled to be off. In the ten work day period (total of 80 hours), an EMPLOYEE will work eight nine hour days, one eight hour day, with the tenth day off. If the eight hour day falls within the first four work days, the first work week will end after five hours of work on the fifth day of work. If the eight hour day is on or after the fifth day, the first work week ends after four hours of work on the fifth day.

Under the alternative work schedules, a normal work day will be either eight, nine or ten hours, exclusive of lunch period, as scheduled.

EMPLOYEES working an alternative work schedule will not accrue or be paid overtime for days they are scheduled to work nine or ten hours unless work is performed in excess of forty (40) hours per week. Work weeks will be adjusted as described above so that the normal work week remains as forty (40) hours per week.

Time cards for affected EMPLOYEES shall reflect the appropriate work schedule and work week in order to maintain compliance with the Fair Labor Standards Act.

EMPLOYEES may be required to work assigned shifts with hours other than the EMPLOYEE'S regular shift.

Any absence occurring as a result of the use of the provisions of this ordinance and approved by the RESPONSIBLE AUTHORITY shall be an approved absence.

This Section is intended only to define the normal hours of work, the work day, and the work week, and shall not be construed as a guarantee to any covered EMPLOYEE other than OFFICERS and UNCLASSIFIED EMPLOYEES of a set amount of compensable hours of work per day or per work week, or of days of work per week. The DISTRICT reserves the right to determine that there is insufficient work to be performed, on any work day or during any work week, and may relieve, solely in the DISTRICT'S discretion, covered EMPLOYEES from work, for lack of work, during any work day or work week. EMPLOYEES so relieved from work shall not receive any salary for work not performed but may, at their option, resort to any accumulated compensatory time off, vacation leave, or other leaves (except sick leave) to supplement their wages while relieved from work under this section.

3.10.090 Standby Duty & Emergency Assignments

When it is necessary for the protection of public health, safety, or welfare, an EMPLOYEE may be requested to remain on standby for emergency work and/or to perform emergency work during off-duty hours. The following shall apply to such assignments:

1. Standby duty requires the EMPLOYEE so assigned to be ready to respond immediately to calls for the EMPLOYEE'S service; to be able to be reached by telephone (or pager); to remain within a specified distance from the District; and to refrain from activities which may impair the EMPLOYEE'S ability to perform his or her assigned duties during the standby period.
2. EMPLOYEES required to be on standby duty shall be allowed a flat rate of twenty (\$20) dollars per sixteen (16) hour period for such duty, and a flat rate of thirty (\$30) dollars per twenty-four hour period of such duty. EMPLOYEES who work a scheduled overtime shift, eight (8) hours, or a portion of an overtime shift, four (4) hours, shall not be paid standby for the same period. Standby increment shall be calculated at the rate of five (\$5) dollars per four (4) hour period.
3. Standby EMPLOYEES who are called out to work shall receive a minimum of one (1) hour of pay, except if they are called out between 11:00 P.M. and 6:00 A.M., they shall receive a minimum of two (2) hours of pay.
4. Emergency time shall be added to regular time worked prior to call out.
5. Commuting time shall be counted as time worked.
6. EMPLOYEES assigned to standby duty may have a vehicle supplied by the DISTRICT, for the period of time they are serving on standby, whenever possible, or the EMPLOYEE may utilize their own vehicle and be paid mileage at the current DISTRICT rate (portal to portal to portal) should they be called in to respond to an emergency.
7. If an EMPLOYEE receives a call while on standby, but is not called out on duty, no additional compensation will be paid.

3.10.100 Payment of Wages

EMPLOYEES shall be paid bi-weekly in accordance with the current District schedule of pay periods. Each monthly rate of pay shall be converted to an hourly equivalent rate for the purpose of payment of regular salary on the basis of hours worked if the number of hours worked is less than forty (40) hours, or for overtime pay.

Standby, overtime, and other special payments shall be made at the completion of the pay period in which such payments are earned or accrued. Overtime shall be compensated at one and one-half times the hourly equivalent rates of pay.

At the option of the EMPLOYEE, compensatory time may be accrued in lieu of cash payment for overtime worked. Hours accrued will be in direct relation to pay earned at one and one half time or double time.

The maximum compensatory time which may be accrued by any EMPLOYEE shall be 80 hours. An EMPLOYEE who has accrued the maximum number of compensatory hours shall be paid overtime compensation in cash for any additional overtime hours worked. An EMPLOYEE shall be permitted to use accrued compensatory time within a reasonable time after it is requested, if to do so would not unduly disrupt the operations of the District.

Payment for accrued compensatory time upon termination of employment shall be calculated at the final hourly rate received by the EMPLOYEE. Compensatory time shall not be used to extend employment upon termination.

"Compensatory time" and "compensatory time off" are defined as hours when an EMPLOYEE is not working and which are paid for at the EMPLOYEE'S regular rate of pay. These hours are not counted as hours worked in the day or week in which they are paid.

If payday falls on a holiday, the District will attempt to have paychecks available on the day prior to the holiday.

3.10.110 Exclusions from Overtime and Standby

All EMPLOYEES designated as OFFICER or UNCLASSIFIED EMPLOYEES shall be excluded from overtime or standby compensation in the form of pay.

In lieu of overtime pay or standby pay, all EMPLOYEES designated as OFFICER or UNCLASSIFIED EMPLOYEES shall be granted a minimum of forty (40) hours per year of Administrative Leave, to be credited on July 1 of each year.

If a District vehicle is available for use and the EMPLOYEE elects to use a privately-owned vehicle, the EMPLOYEE shall not be compensated for mileage.

When it is necessary and authorized by the RESPONSIBLE AUTHORITY for an EMPLOYEE to perform travel for DISTRICT business, which includes mealtimes, such meals shall be paid for by District at a per diem rate of \$30.00 per full day of such travel. Meal allowances for partial days of travel will be compensated as follows: Breakfast \$ 8.00, Lunch \$12.00, Dinner \$16.00. Lodging and other travel expenses shall be paid by DISTRICT upon presentation and approval of receipts for charges.

Additional sick leave may be granted an EMPLOYEE by the RESPONSIBLE AUTHORITY, when in the judgment of the RESPONSIBLE AUTHORITY, such additional time is justified.

benefits and an integral element of the DISTRICT effort to insure the most productive workplace.

1. EMPLOYEE FITNESS

a) EMPLOYEES must be mentally and physically able to perform their duties safely and efficiently, in the interest of their fellow workers and the public, as well as themselves. Refusal to submit to such a test may constitute insubordination and may be grounds for discipline up to and including termination.

3. EMPLOYEE Actions. Any EMPLOYEE who reasonably believes another EMPLOYEE to be under the influence of alcohol or drugs shall report the incident immediately to their supervisor or department head who shall report the incident to the GENERAL MANAGER/CEO immediately. The safety of the EMPLOYEE and the public should be considered in that the EMPLOYEE should be required to cease further work that could prove harmful. Refusal to submit to such a test may constitute insubordination and may be grounds for discipline up to and including termination.

4. EMPLOYEE Assistance. The Placer County Division of Drug Program Services and Placer County Division of Alcohol Program Services have established voluntary assistance programs to assist those who seek help for alcohol and drug problems. EMPLOYEES with an identified alcohol or drug problem should voluntarily seek confidential assistance. DISTRICT and UNION medical plans provide for payment for these services.

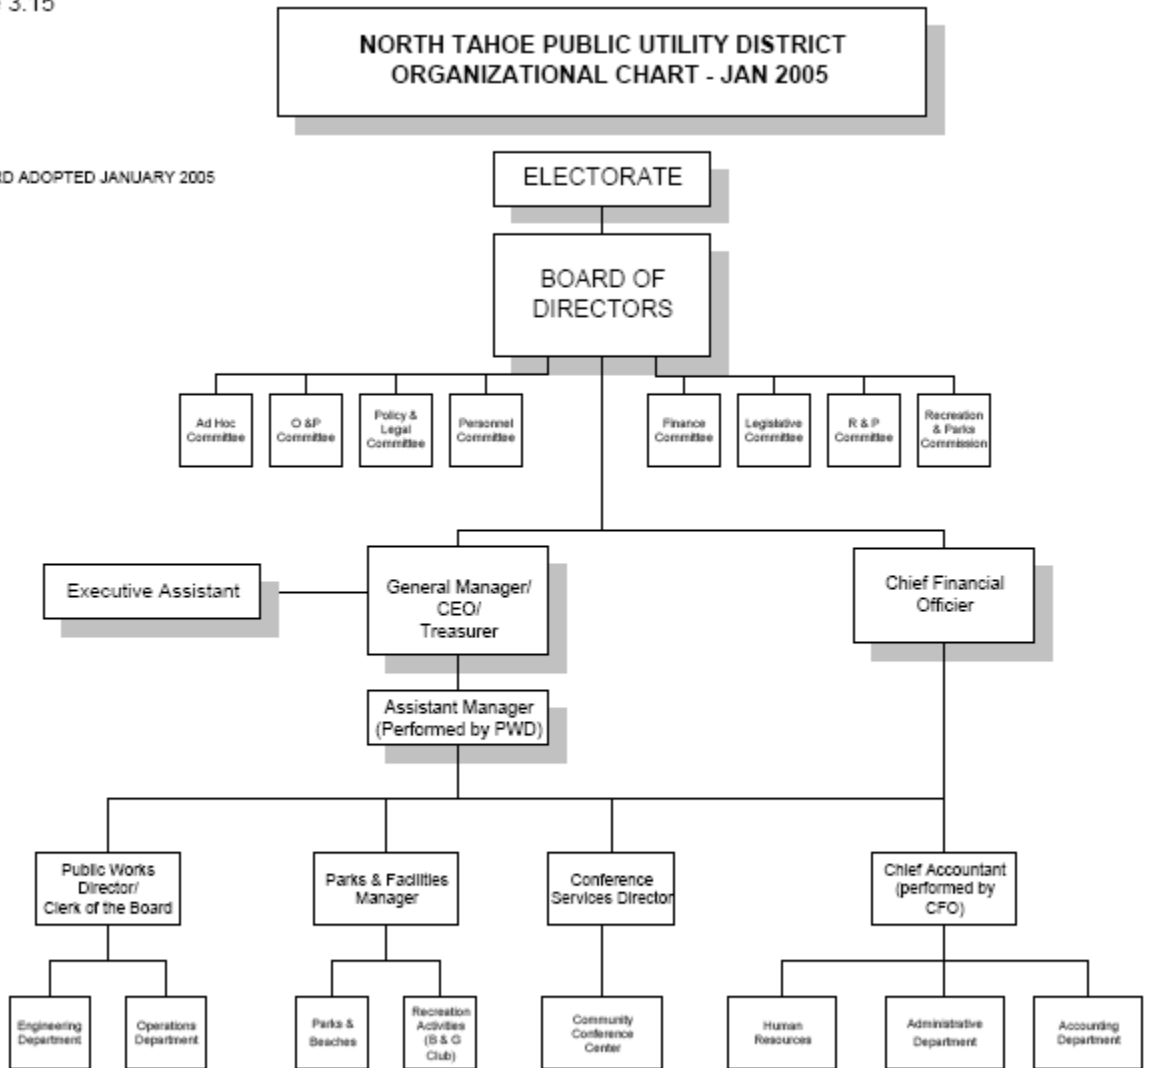

5. As a condition of employment, DISTRICT EMPLOYEES are expected to be aware of the terms of this policy and to notify the DISTRICT of any criminal drug statute conviction for a violation occurring in the workplace within 5 days of the conviction. Violation of this policy is cause for disciplinary action, up to and including discharge from DISTRICT service.

6. Substance Abuse Testing Policy: Department of Transportation, 49 CFR Part 29, "The Drug-Free Workplace Act of 1988". In compliance with Federal drug and alcohol testing regulations, the DISTRICT must adhere to the Substance Abuse Testing Policy as shown in Article 3.30.

CHAPTER 13 (RESERVED)

CHAPTER 14 (RESERVED)

CHAPTER 15 (RESERVED)

CHAPTER 16 PERMIT TRANSFERS

16.010 Applicability

This Chapter shall apply only to transfers of single family residential and multiple family residential permits.

16.020 General Principles

A. North Tahoe Public Utility District Water and Sewer Permits are only transferable to other properties within the District.

B. All permits must be attached to a parcel of property located within the boundaries of the North Tahoe Public Utility District. Other forms of “banking” of permits are not allowed.

16.030 Definitions: Type of Permits

A. Active Permits: Permits which serve active uses are considered Active Permits. Active Permits are subject to user charges as determined by North Tahoe Public Utility District Ordinances.

B. Inactive Permits: Permits which do not serve an active use are considered Inactive Permits. Inactive Permits are subject to base monthly user charges as determined by North Tahoe Public Utility District Ordinances, together with an Inactive Permit Administrative Fee of \$10/month/ single family dwelling equivalent for sewer permits or \$10/month for water permits.

C. Disconnected Permits: Permits which have been retired, cancelled or surrendered because of no further need by the user or because of non-payment of user charges are considered Disconnected Permits. Disconnected Permits have no rights and are not subject to any user charges.

16.040 Procedure for Inactivating a Permit

A. Only permits which “stand alone” and have a separate entry in North Tahoe Public Utility District records may be inactivated. These include all sewer permits and only water permits which are served through a separate meter. Reduction in the use of a water connection served by a common meter shall not be considered inactivation of a water permit.

B. Only the owner of the property served by a connection may apply for inactivation of a permit. The ownership must be verified and the owner must execute a notice of inactivation/hold-harmless document in favor of the North Tahoe Public Utility District, which will be recorded against the property.

C. Only permits which are currently active and have all charges paid currently will be eligible for inactivation.

D. The inactivation of permits shall be subject to a Permit Inactivation Fee in the sum of \$400 per single family dwelling equivalent for sewer permits and \$400 for water permits. (Changed 061405 Ordinance 351)

E. The physical requirements for inactivation of permits shall meet the same requirements of disconnecting North Tahoe Public Utility District services from property. This includes capping, removal of lines, removal of meters, etc. and shall be subject to the same North Tahoe Public Utility District fees, if any, associated with disconnection of service.

F. Inactive Permits “run with the land” and the ownership thereof will be automatically transferred with any transfer of the real property to which they are assigned. Any new owner of the real property has the responsibility to pay fees required to maintain the status of Inactive Permits assigned to that property. In the event required fees are not paid for 60 days an Inactive Permit will be converted into a Disconnected Permit and not be subject to restoration.

16.050 Assignment of Inactive Permits

A. Inactive Permits must be assigned to real property located within the North Tahoe Public Utility District. The real property need not be owned by the same owner of the real property to which the Inactive Permit is currently assigned.

B. Inactive Permits may only be assigned to real property which would be independently eligible to purchase a new permit, and the real property must meet all of the requirements which must be met in order for the North Tahoe Public Utility District to issue a new permit, as set forth in other North Tahoe Public Utility District ordinances.

C. The assignment process is initiated by application from the owner of the real property to which the permits are currently assigned. No additional application fee shall apply. The ownership must be verified and the owner must execute a notice of transfer/hold-harmless document in favor of the North Tahoe Public Utility District, which will be recorded against the real property.

D. The assignment of inactive permits shall not be subject to payment of connection fees, however any fee associated with the physical installation of a new service, plan or design review fees or variance fees, such as installation fees, inspection

fees, meter or meter box fees, meter setting fees, etc will be payable, even if bundled within a connection fee.

E. In the event a permit associated with a parcel of real property is assigned to another parcel of real property and the original real property is further developed, the additional development shall be subject to new connection fees.

16.060 Conversion of Previously Disconnected Permits to Inactive Status

A. Previously Disconnected Permits may be converted to an Inactive Permit status, provided that application is made no later than May 15, 2005. Applications for conversion must be made within this period. The procedure for restoration during this period is the same as that for inactivating a permit and the same fees apply, provided however, that the applicant must also pay a fee equal to the base fee the permits would have been charged, including any Inactive Permit Administrative Fee, for the entire period during which the permit was disconnected and not charged a fee.

B. All previously Disconnected Permits which are not converted to Inactive Permits by May 15, 2005 shall no longer be eligible for conversion.

16.070 Applicability to Other Agencies

The provisions of this Chapter 16 are intended to apply solely to permits issued by the North Tahoe Public Utility District for use within the North Tahoe Public Utility District and are not intended to constitute transfers of, or be applicable to, permits issued by any other agency, including but not limited to the Tahoe-Truckee Sanitation Agency.

16.080 Adjustment of Fees

All fees and charges separately stated in this Chapter 16 shall be subject to an automatic annual adjustment in the sum of 2%, commencing January 1, 2006, provided, however, that this Section shall not preclude other adjustments based upon special circumstances.

CHAPTER 17 DEVELOPMENT RELATED SERVICES AND VARIANCES

C. Plan Review and Approval Services for Projects. There shall be no charge for up to two (2) hours of administrative and professional staff consultation expended on plan review and approval services for a project. Any time in excess of two (2) hours per project shall be billed on a time and materials basis.

Applications for variances from adopted District design standards, policies or ordinances shall be subject to an application fee of \$1,000.00. Such application fee shall include up to two (2) hours of administrative and professional staff time in processing the variance application. Any time in excess of two (2) hours per application shall be billed on a time and materials basis. The acceptance and processing of a variance request by the District shall not obligate the District to approve such variance request. Variance applications shall only be accepted if variances are allowed under applicable District design standards, policies or ordinances, and the terms and conditions of any variance which may be granted shall be subject to such specific conditions of approval, hold-harmless and indemnification agreements and related memorandums of understandings as deemed appropriate by the District, however no mitigation fees shall be charged. Variations shall only be allowed under the following circumstances: (1) the granting of the variance will not significantly adversely impact the operation and maintenance of District facilities, including but not limited to economic impacts, (2) the granting of the variance will not result in adverse public health or environmental consequences, (3) there is no other practical alternative available to the applicant which does not require the granting of a variance, and (4) the applicant has proposed to utilize the highest technological

methodology available in design and construction so as to avoid or minimize adverse impacts on District facilities.

E. Reduced Fees for Minor Easement Intrusion Variance Applications. The application fee set forth in Section 17.010 D shall be reduced to \$250.00 for variance applications involving minor intrusions into District utility easements.

1. Minor intrusions into District utility easements are defined as those intrusions involving fences, landscaping and small walls, where County permits are not required and permanent structures are not proposed. Minor intrusions do not include intrusions into District easements which contain sewer force mains, gravity sewer mains 6 inches or greater in diameter or water transmission lines 6 inches or greater in diameter, or which contain any facilities located at a depth requiring trench shoring for maintenance.

2. The Minor Easement Intrusion Variance Fee shall be waived for applications to mitigate minor intrusions which existed on July 1, 2005, provided application is made no later than December 31, 2007.

(17.010 D & E Updated 110805 per Ordinance 353)

17.020 Computation of Time and Material Fees and Charges

Time and materials charges shall be computed using the District's then current hourly and administrative labor and overhead rates and shall include related direct expenses and any costs related to compliance with rules and regulations of others, including the California Environmental Quality Act.

17.030 Applicability of Fees and Charges

The fees and charges set forth in this Section shall apply to all events for which a formal submission to the District takes place after the effective date of this Section. Events for which a formal submission has taken place before the effective date of this Section shall not be subject to such fees and charges.

17.040 Developer Reimbursement Agreements

Upon a request for services or the filing of a variance application which could include a time and material charge the General Manager or his or her designee shall estimate the amount of time and materials required to complete the request. Where the estimate is substantially greater than the amount provided at no charge the General Manager shall require the applicant to execute a Developer Reimbursement Agreement and provide the District with an initial deposit in a sum appropriate to the request.
