North Tahoe Public Utility District Releases Parks and Recreation Public Opinion Survey

A Public Opinion Survey has been mailed to North Tahoe Public Utility District Property Owners to better understand the priorities related to Park facilities and community services. Those that are residents of the District, but are not property owners, are encouraged to complete the survey online by going to www.districtsurvey.org

Information gathered in this survey will be used to make decisions in a way that best serves the District and the North Tahoe area. Currently, revenue to maintain and operate the Parks system comes predominantly from Community Facilities District (CFD) 94-1, which is not maintaining pace with the costs associated with the operation and maintenance of the North Tahoe Regional Park, Tahoe Vista Recreation Area, the North Tahoe Event Center and other community services that are funded by the District. Without additional revenue, the District may be forced to close amenities within, or sell a portion of the North Tahoe Regional Park because current funding does not provide enough funding to maintain this 100+ acre park.

“The opinions and ideas of our property owners and residents are critical,” says Curtis Aaron, General Manager/CEO of the North Tahoe Public Utility District. “As the District prepares to plan for deferred maintenance and capital improvements that need to be made, the priorities of our residents and property owners and information on the amount of additional financial support they are prepared to make for the Parks facilities are critical elements of our planning.”

The District encourages all property owners and residents to take the time to complete the survey and return it to the District, or complete it on-line at www.districtsurvey.org The

opinions and ideas are very important to us as we continue to serve the Park and community needs of the north shore of Lake Tahoe. Spanish versions of the survey are available by contacting the District offices.

The North Tahoe Public Utility District provides sewer and water service to the residents of Kings Beach, Tahoe Vista, Carnelian Bay, Cedar Flat and Agate Bay. The District owns, manages and maintains the North Tahoe Regional Park in Tahoe Vista which provides recreation opportunities to residents and visitors. In addition, the NTPUD owns and/or maintains all of the public beaches in the District including Kings Beach State Recreation Area, Tahoe Vista Recreation Area, and Secline Beach to name just a few. The North Tahoe Event Center in downtown Kings Beach is also owned and managed by the NTPUD.
